[†]Offer good thru November 30, 2015.

* Monthly subscription price per location is based on Net Average Weekly Purchases with AutoZone. Actual customer pricing levels are based on the customer's Net Average Weekly Purchases, excluding salvage parts and AutoZone extended credit terms. Net Average Weekly Purchases are defined as: total purchases minus returns, and credits, over the previous calendar month, divided by the number of days in the month, and then multiplied by seven. Account will be billed a subscription price of \$149.00 each month, and then a rebate based on Net Average Weekly purchases will be credited to the account each month to arrive at the price indicated in chart above.

** For 90 days after the customer's first order using AutoZone Connect Dealer, 5% earn back offer will be paid on Net Online Purchases placed via AutoZone Connect Dealer or AutoZonePro.com. The customer will only be paid for online purchases placed during the dates of program period. Each Commercial Account's 90-day earn back period begins the day the first online order is placed by the qualifying commercial customer. Earned dollars will be paid via credit memo on a monthly basis. Qualifying commercial customers must earn back at least \$25 during each calendar month in order to receive a payout for such month. Commercial customer must be in good credit standing at the time payments are issued in order to receive payment. The 5% monthly rebate on Net Online Purchases is calculated as total Net Online Purchases divided by the number of days in the month, times seven, times 5%. Not valid with any other offer.

***Beginning with the customer's first online order, a rebate, as set forth in the chart above, will be paid on Net Online Purchases placed via AutoZone Connect Dealer or AutoZonePro.com. Each Commercial Account's rebate begins the day the first online order is placed by the qualifying commercial customer. Earned dollars will be paid via credit memo on a calendar quarter basis. Qualifying commercial customer must earn back at least \$50 during each calendar quarter in order to receive payout for such quarter. Participating commercial customers must be in good credit standing at the time payments are issued in order to receive payment. The rebate percentage, as set forth in chart, is calculated as total Net Online Purchases divided by the number of days in the quarter, times 7, times rebate percentage as set forth in chart. Not valid with any other offer.

****Net Online Purchases are defined as online purchases during each calendar month or calendar quarter, when applicable, excluding: oil, antifreeze, refrigerant, tool and equipment purchases, returns, penalties, allowances, other incentives, and any and all unpaid invoiced amounts.
